3. GCRB Running Costs 2023-24

3.1. The table below provides a summary of the actual income and expenditure for the year ending 31 July 2024.

3.2. The key points to note:

- The cost of staffing includes the agreed pay increase for the years beginning 1 September 2022 and 1 September 2023). The pay increase is lower than the budgeted amount and has resulted in a saving to GCRB of £11k.
- The forecast staffing cost includes the reduction in the employer's pension contribution (from 1 April 2024). This has resulted in a saving, compared to the original budget, of £11k.
- Board costs are lower than budget, mainly because of lower days claimed by the Chair during the first five months of the year (resulting in a saving of £8k).
- The forecast increase in audit costs is due to the rise in the external audit fee (as advised by Audit Scotland).
- Forecast other expenditure is expected to be lower than originally budgeted. This is due to patterns of expenditure, on communications and staff development, being lower than originally budgeted.

- **ESOL** – funding continues to be provided by GCRB, as in previous years.
- **Mental Health** – no expenditure has been incurred so far in 2023-24.
- **Climate Change/Sustainability** – expenditure has been incurred on staff costs with some additional project support.
