

# Performance and Resources Committee Meeting

Date of Meeting	Wednesday 5 June 2019
Paper Title	Glasgow Region – mid-year forecast return
Agenda Item	10.e
Paper Number	PRC5-J
Responsible Officer	Jim Godfrey, Finance & Resources Director
Status	Disclosable
Action	For Information

### 1. Report Purpose

**1.1.** To invite the committee to consider the consolidated mid-year forecast out-turn for 2018-19.

### 2. Recommendations

**2.1.** The Committee is asked to **note** the mid-year forecast out-turn for 2018-19.

### 3. Background

- 3.1. The financial forecast return (FFR), is already an established part of process for monitoring the financial health of colleges. Colleges and Regions submitted their 2018 FFRs in September 2018, showing the forecast outturn for 2017-18 and financial outlook over the next five academic years up to 2022-23.
- **3.2.** The Scottish Funding Council wrote to the sector on 1 August 2018 to confirm that resource returns were no longer be required. To enable continued monitoring of the forecast outturn for the current academic year, a mid-year financial forecast return (MYR) would be required instead.
- **3.3.** The MYR enables a forecast of colleges' financial position in terms of income and expenditure, adjusted operating position, balance sheet and liquidity part way through the current academic year and draw comparisons with the original forecasts (FFR) provided at the end of September 2018.
- **3.4.** On 1 February 2019, the Scottish Funding Council issued a Call for Information in respect of the mid-year financial forecast return. Returns were requested by 29 March 2019. The Call for Information requested that colleges provide an updated financial forecast return for the academic year 2018-19. Returns for the assigned colleges in multi-college regions were submitted to the Regional Strategic Body (RSB) and then by the RSB to the Scottish Funding Council. Any queries would be directed through RSBs. Further information is available via the following link:

http://www.sfc.ac.uk/publications-statistics/calls-information/2019/SFCCI012019.aspx

### 4. Forecast mid-year out-turn for 2018-19

- **4.1.** Within the Glasgow college region, the three assigned colleges provided their midyear financial forecast returns in advance of the deadline. The college information, together with the GCRB information, was consolidated and the combined return provided to the Scottish Funding Council on 29 March 2019.
- **4.2.** On 10 April 2019, we received an email with a small number of queries from the Scottish Funding Council. These queries were responded to in a prompt manner and returned two days later.

### 5. Comparison of Mid-Year Return (March 2019) & Financial Forecast Return (September 2018)

- **5.1.** In summary, the data provided within the mid-year returns is consistent with expectations.
- **5.2.** In respect of income, there has been an increase in fee income relating to the recruitment of Foundation Apprentices. This is offset by additional expenditure on staff costs.
- **5.3.** There has also been a reduction in Funding Council grants as a result of the clawback of funding relating to national bargaining. This is something that was discussed previously by this Committee.
- **5.4.** The other significant change in income relates to the sale proceeds of North Hanover Street. The sale proceeds have been shown as income by City of Glasgow College and the transfer of funds elsewhere shown as expenditure. This is a simplified recording of the transaction and we would expect this to be dealt with differently within the statutory financial accounts.
- **5.5.** Expenditure in the mid-year return is consistent with that reported in the financial forecast return (as revised for the expenditure relating to the income identified at 5.2 and 5.4 above).
- 5.6. The forecast (adjusted) operating result for the region is £593,000 for the year ending 31 July 2019. This sum is consistent with the figure reported in the Financial Forecast Return (in September 2018). However, it is recognised that the level is surplus equates to 0.3% of total income a very tight margin.

## 6. Other

- **6.1.** It is important to note that there are some items of income and expenditure that will not be known until after the year end (for example pension valuations for the year ending 31 July 2019). Material changes in these figures will result in a variance compared to the forecast contained within the Mid-Year return.
- **6.2.** It is anticipated that the Scottish Funding Council will shortly issue a Call for Information in respect of the next Financial Forecast Returns. It is expected that this will include assumptions for future years and returns will be sought by 30 June 2019.

### 7. Risk Analysis

**7.1.** There are no risks that are directly associated with this report. However, the financial sustainability of the Glasgow college region is a central risk on the risk register. The monitoring information, contained within this report, provides a level of assurance in respect of the financial sustainability of the region in the current financial year.

## 8. Equalities Implications

**8.1.** There are no equalities implications as a direct result of this report.

## 9. Legal Implications

**9.1.** There are no specific legal implications associated with this report.

### **10.** Resource Implications

**10.1.** The financial implications associated with the 2018-19 forecast out-turn are set out in the body of the report.

### 11. Strategic Plan Implications

**11.1.** The resources utilised by the Glasgow region will directly contribute to the achievement of the outcomes in 2019-20.

Mid-year return 2018-19

DECLARATION	The attached worksheets represent an update on the financial forecasts for the College, based on the actual financial results for the year to date and other relevant information. I consider the revised forecasts to be a reasonable assessment of the College's projected financial position at the end of this academic year in the light of the information available to me.
Signed:	Jim Godfrey Principal/Chief Executive Officer
Date:	29-Mar-19
